Professional Summary

Results-driven UI/UX Designer and Front-End Developer with 2+ years of hands-on experience across 2 companies, 10+ Behance projects, and 100+ screens delivered. Currently designing and building production websites and mobile apps at Brix Networks. Proven ability to own the full design pipeline — from user research and wireframing to high-fidelity Figma prototypes and React implementation. Adept at collaborating with cross-functional teams to ship intuitive, visually polished digital products.

Experience

UI/UX Designer & Front-End Developer

Dec 2025 – Present

Brix Networks

- Designed and shipped 6+ production websites and 1 mobile app end-to-end, delivering 100+ screens from initial wireframes to developer-ready Figma specs
- Own the complete design-to-code pipeline — crafting UI systems in Figma and implementing pixel-perfect front-end in React and HTML/CSS
- Establish and maintain scalable component libraries and design tokens, ensuring visual consistency across all products

UI/UX Designer

Feb 2025 – Jul 2025

Quick App Studio

- Delivered end-to-end UI/UX for 30+ mobile apps and websites — user flows, wireframes, hi-fi mockups, and interactive prototypes in Figma and Adobe XD
- Created a shared design system and component library; collaborated directly with developers to ensure accurate, pixel-perfect implementation

Assistant Architect

Dec 2022

Aishwarya Eye Foundation, Chennai

- Designed a key hospital floor under a senior architect; design was selected from proposals and completed over a one-month engagement — sharpening AutoCAD skills and google SketchUp skills with client-facing presentation skills
